

I am writing this comment to you in regards to my K-love station. I listen to K-love all of the time. In fact, it is the only radio station that I listen to. K-love really ministers to me as a member of the community. Not only do they play positive music, but they keep me updated on concerts and things going on in and around my community. They also keep me updated on the major stories and current happenings in the nation as well as the world. I know a lot of my friends also listen to K-love and it is also one of the major, if not the only, radio station that they listen to. There would be a LOT of disappointed citizens if K-love was taken off the air. I know that I wouldn't even listen to the radio anymore. K-love is a huge part of my life as well as others'. I believe that K-love has a huge effect on the public as a whole. While there are stations playing country, rap, pop, etc. music, there aren't a whole lot of stations that play Christian music. The music is both uplifting and wholesome. I believe that the public is being positively influenced by this radio station. I support K-love both financially and in prayer because I believe in their ministry and what they offer for the public. K-love is an important part of my life and I want it to stay on the radio. Thank you for reading my comments.
